True Bills Found Against Sixteen Firms and Thirty-two Individuals.

ORIGIN OF PROCEEDINGS

Criminal Ones Grew Out of Civil Suit By Government to Dissolve

Detroit, Dec. 6.-The anti-trust campaign of Atty.-Gen. Wickersham shifted to Detroit this week, with the result that indictments were returned by the federal grand jury against 16 firms and 35 individuals alleged to have secured control of \$5 per cent of the annual output of enamel ironware bathtubs, sinks, lavatories, etc., in the United States.

The criminal proceedings grew out of a civil suit to dissolve the alleged combination begun by the government in the federal court at Baltimore. Hearings were held in Chicago, Pittsburg and New York within the last 40

days.

The evidence adduced was presented to the grand jury by Edwin P. Grosvenor, special assistant to the at-

#### REPUBLICAN REPORT ON BALLINGER-PINCHOT

Washington, Dec. 6.—The report of Republican members of the Ballinger-Pinchot investigating committee has been completed and will be submitted to a full meeting to be called by Senator Nelson tomorrow or Thursday.

It is expected the majority report, together with the report made by Demoratic members and the independent report of Representative Madison of Kansas will immediately be submitted to both houses of Congress.

There is some question as to the method that will be followed after the reports have been received. The Demorats say they will insist that the reports be taken up for consideration and will introduce a resolution.

The peculiar properties of Chamberlain's Cough Remedy have been thor-oughly tested during epidemics of in-fluenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all dealers.

#### SEE EVIDENCES OF COMMERCIAL PROSPERITY

Washington, Dec. 6.—Despite the fact that the last report of the national banks shows decreases of some \$15,000,00 in loans and discounts and corresponding gains in east, which may be taken to indicate a slackening of commercial activity in some parts of the country, a comparison with the condition a year ago gives a different result, and officials of the treasury department see evidences of commercial prosperity. In November the 7,000 national banks of the United States were carrying nearly \$400,000,000 more in loans and disposits were \$18,000,000 greater than in 1905, and total resources of all the banks were \$265,000,000 greater.

### 50 Per Cent ALBUMEN

We have the following report on an extreme case of Bright's Disease. Patient, Frank H. Chandler Clay, New York, member of Salt Springs Lodge, F. & A. M., No. 529, Syracuse:

The physician was called in in May, 1908. Diagnosed it us Bright's Disease, with albumen 22 per cent. Dropsy soon appeared from head to foot. Case resisted treatment and became alarming. A specialist and two other physicians called in in consultation. At this point patient was nearly bursting with dropsy. Had to be tapped, four quarts of water being drawn. The situation was compileated with paralyzed condition of the bowols. Stomach would only retain peptonized, milk. Distressing uraemic headaches and eyesight impaired. At this point the family called in a fifth physician. He gave no hope, Tests by the College of Medicine, Syracuse, N. Y., showed 50 per cent albumen with casts.

At this critical moment the patient's family heard of a friend whose case was pronounced hopeless and had recovered. They investigated and found that the recovery was through Fulton's Renal Compound. Sent for it and put the patient on it December 25th.

Case stubborn and yielded but slowly. The first favorable sympton noted was that the patient began to sleep normally. The first favorable sympton noted was that the patient began to sleep normally. The drops began to decline and was finally completely eliminated. Complications subsided with gradual disappearance of Bright's Disease possible. These daily reports of recoveries should interent every family in which there is Bright's Disease and every physician in the U. S. Nothing but the prejudiess and mistaken notions of the past can now prevent recovery in a great majority, but it is dangerous to let cases get as serious as the above before putting them on the treatment.

#### WHY SALVES FAIL TO CURE ECZEMA

Scientists are now agreed that the eczema germs are ledged not in the outer skin or epidermis, but in the inner skin. Hence, a penetrating liquid is required, not an outward salve that closs the pores.

We recommend to all eczema pa-

tients the standard prescription Oil of Wintergreen as compounded in liquid form known as D. D. D. Prescription. A trial bottle of this D. D. D. Prescription, at only 25 cents, will instantly re-lieve the itch. We have sold and re-commended this remedy for years, and know of wonderful cures from its use. We recommend it to our patrons.

#### Buy the Boy a Bond.

At this season parents. poor and rich alike, are seeking suitable presents for their children. We suggest a bond or other sound security. These we can supply in denominations as low as \$100.

Many parents, who wouldn't think of spending so much on a perishable present, can afford to invest this amount for a bond. The possession of the security will be helpful in forming the child's character and it will teach him, as no mere words can, how money works for its possessor.
